1. (S) As you undoubtedly know, collection of information [REDACTED] is an intelligence item of the highest interest to the US Army. I appreciate the past efforts of your organization to assist the USAITAC in this matter. I believe, however, that we must now resume our efforts [REDACTED]

2. (S) Accordingly, I have asked LTC David E. Russell, Chief of the Special Research Division - ITAC, to provide you with a new ICR on the subject. In addition, in order to fully capitalize on the multidiscipline capability of the ITAC in this important subject, I believe that we should indoctrinate a qualified imagery analyst to Grill Flame. Such an individual would be of great help in interpreting any images and sketches you might collect. He would also be useful in guiding your collection process.
